

SONY

Xperia™ in Business

Product overview

Read about the enterprise policies and features supported in Xperia devices

March 2018

XPERIA

About this document

Products covered

This document describes Xperia in Business enterprise services and features in Sony Mobile devices. Please refer to the tables in the Product overview document for details about supported products and software versions.

To find the software version of a device:

- Select **About phone** in **Settings** > **System** (Android 8.0)
- Select **About phone** in **Settings** (Android 7.1 or lower)

Limitations to services and features

Some of the services and features described in this document might not be supported in all countries/regions or by all networks and/or service providers in all areas. Please contact your network operator or service provider to determine availability of any specific service or feature and whether additional access or usage fees apply.
